

Objectives:

- Students will divide positive integers from the multiplication table without remainders, as evidenced by them passing one-minute quizzes.
- Students will answer questions about the last two weeks of school, as evidenced by them completing a warm-up worksheet where they do so.
- Students will write their exhibition reflections and finish the project, as evidenced by them completing the corresponding exhibition worksheets and turning the exhibition in.

Materials:

- Unit calendar transparency
- “Minute Quiz 6-3” for each student
- “Warm-up 6-3” for each student
- “Sample Exhibition Project” for each table (class set)
- “Exhibition Reflections” handout for each student

Do Now:

- Park stuff
- Work on warm-up
- Get ready for minute quiz

Homework:

- 11 hours of ALEKS due by end of semester.
- Finish exhibition. It's due next class.

Time	Activity
Before Bell	<p style="text-align: center;">AGENDA, DO NOW, AND WARM-UPS</p> <p>Write the agenda and the do now on the board. As students enter the classroom, shake their hands, give them a copy of the warm-up, and direct them to follow the directions listed for the “do now.”</p>
10 min	<p style="text-align: center;">MINUTE QUIZ, WARM-UP, AND ATTENDANCE</p> <p>Minute Quiz and Warm-up When the bell rings, quickly go around and put the minute quiz on each student’s desk, face down. Then, start everyone on the quiz at the same time and give everyone one minute. Students should work on the warm-up when they’re done with the minute quiz. After the minute is over, have a student collect the minute quizzes and give them to the teacher’s aide (TA) to grade.</p> <p>Attendance While students work on the warm-up, take attendance. After the allocated time is over, stamp warm-up and notes checkers.</p>
5 min	<p style="text-align: center;">ANNOUNCEMENTS</p> <p>ALEKS Ask students, <i>How many hours of ALEKS are due by the end of the semester?</i> Point to the homework assignment that indicates the answer. <i>[Eleven.] That means you have this week, and next week during finals, to catch up to 11 hours. Remember, any extra time that you have becomes extra points for your homework.</i></p> <p>Unit Calendar Put up the unit calendar from last unit, since it contains everything up until the end of the school year. Explain to students what is going on until the end of the school year.</p>
25 min	<p style="text-align: center;">EXHIBITION: REFLECTIONS & CLOSURE</p> <p>Hand out the sample exhibitions (“A Day in the Life of Mr. Wong”). Inform students that today is the last day to finish the exhibition. Students may turn in their exhibitions today, or if they need more time, the next class. Today, students will be filling out their personal and mathematical reflections, creating their title pages, and tying up any loose ends. So, their two tasks today for note points are: 1) write reflections; and 2) make title page. Pass out the “Exhibition Reflections” handouts. When students finish, stamp their warm-ups & notes checkers.</p>

Lesson 6-3 – Exhibition Reflections & Closure

35 min	<p style="text-align: center;">ALEKS</p> <p>During this time, everyone should be working on ALEKS. If they did not finish their activity categories or pie charts, they should finish them for homework. Use this student work time to return graded homework.</p>
5 min	<p style="text-align: center;">CLEAN UP</p> <p>Students must check the laptops with the teacher or the TA before putting them away. After putting the laptops away, students should pack up, sit in their seats, and wait to be dismissed by the teacher (not by the bell). Make sure students push in their chairs as they leave.</p>

Solve the following division problems. You have exactly one minute!

Please fill in the blanks.

1. How many hours of ALEKS are due by the end of the school year? _____
2. At the end of the school year, your extra ALEKS time becomes _____ towards your homework grade.
3. When is the exhibition due? _____
4. The exhibition counts towards your _____ grade.
5. When is the final exam for this class? _____
6. Minute quizzes are worth _____ % of your grade.
7. Can you still retake minute quizzes? _____
8. Mr. Wong's office hours are Tuesday and _____ after school.
9. By completing this warm-up, you get _____ points extra credit.
10. How are you doing today? _____
