Objectives:
- Students will divide positive integers from the multiplication table without remainders, as evidenced by them passing one-minute quizzes.
- Students will answer questions about the last two weeks of school, as evidenced by them completing a warm-up worksheet where they do so.
- Students will review for the decimals portion of the final, as evidenced by them completing a practice final.

Materials:
- Unit calendar transparency
- "Minute Quiz Final Review 1" for each student
- "Warm-up Final Review 1" for each student
- 4"x 6" index card for each student
- "Final Exam Practice Test" for each student

Do Now:
- Turn in exhibition project
- Park stuff
- Work on warm-up

Homework:
- 11 hours of ALEKS due by end of semester
- Work on 4" x 6" note card

Time	Activity
Before Bell	**AGENDA, DO NOW, AND WARM-UPS** Write the **agenda** and the **do now** on the board. As students enter the classroom, shake their hands, give them a copy of the warm-up, and direct them to follow the directions listed for the "do now."
10 min	**MINUTE QUIZ, WARM-UP, AND ATTENDANCE** **Minute Quiz and Warm-up** When the bell rings, quickly go around and put the **minute quiz** on each student's desk, face down. Then, start everyone on the quiz at the same time and give everyone one minute. Students should work on the **warm-up** when they're done with the minute quiz. After the minute is over, have a student collect the minute quizzes and give them to the teacher's aide (TA) to grade. **Attendance** While students work on the warm-up, take **attendance**. After the allocated time is over, stamp warm-up and notes checkers.
5 min	**ANNOUNCEMENTS** Go over the questions on the warm-up for the announcements. Use the unit calendar transparency to help students with dates, especially when their finals are.
60 min	**FINAL REVIEW: DECIMALS (#1-35) & ALEKS** Hand out the practice finals and the index cards. Students can use the index card as a "cheat sheet" on their final, so as they work on problems #1-35 on the practice final, they should write down any problems that will help them. Next class, they will be working on the second half of the practice test (percents). Once they finish with the first part of the practice test, they should work on ALEKS.
5 min	**CLEAN UP** Students must check the laptops with the teacher or the TA before putting them away. After putting the laptops away, students should pack up, sit in their seats, and wait to be dismissed by the teacher (not by the bell). Make sure students push in their chairs as they leave.
